Rear Exhaust Kit

Our rear exhaust kit delivers performance and cutting-edge style to your 2-seater Sea-Doo Spark. Allows for removal of restrictive sound suppression system located between water box and hull exit. Improves engine performance by reducing back pressure and restriction. Includes mandrel bent aluminum exhaust tube that is powder coated to prevent corrosion, large billet through-hull exhaust outlet, OEM exhaust outlet block-off and high-temp silicone couplers along with all necessary mounting hardware & installation instructions. Fits 2 seater Sea-Doo Spark models only.

Key Features:

- Improved performance & reduced back pressure.
- Large aluminum rear exhaust exit looks awesome!
- All components anodized and powder coated to prevent corrosion.
- Fits 2 seater Sea-Doo Spark only.

RS15130 - £349.00

Free Flow Exhaust Kit

Replaces the restrictive sound suppression system located between the water box and hull exit on your 2 or 3 passenger Sea-Doo Spark. Improves engine performance by reducing back pressure and harmful detonation. Includes billet exhaust outlet that installs in original exit location, mandrel bent aluminum tubing, high-temp silicone couplers and complete installation instructions.

Key Features:

- Improved performance & reduced back pressure.
- Mandrel bent aluminum tubing is powder coated to prevent corrosion.
- Aluminum construction and high temp silicon couplers hold up to backfires & overheats.
- Fits both 2 & 3 passenger Sea-Doo Spark models

RS16130 - £249.00

R&D Spark Power Filter

The R&D Spark Power Filter Kit will add a noticeable increase in throttle response and overall power by opening up and allowing more air flow over the super restrictive O.E.M. air plenum box. The O.E.M. filters are known to be over restrictive causing sluggish low-end power. The R&D Filter Kit incorporates and adds needed intake track length proven to increase overall torque and power on 4 stroke engines. The R&D Filter is easy to install in 30 minutes, adds peak rpm's and power with a great sound tone. The R&D Air Filter element is lifetime serviceable over the restrictive non serviceable stock filter.

203 00900 - £199.00

Spark Waterbox

Unique exhaust baffle design increases the low-end power and mid-range pull of your SPARK's 900cc engine. Delivers up to 5hp on modified engines along with significant torque gains. High-strength aluminum construction will survive backfires and meltdowns. Developed on our Dyno and tested extensively on the water, this water box features radiused exhaust tubes and dished end caps for optimum exhaust flow. Recommended for use with RIVA Free Flow Exhaust Kits or RIVA Rear Exhaust Kits. Includes detailed installation instructions.

Key Features:

- Delivers up to 5hp on modified craft.
- Direct replacement for restrictive OEM water box.
- Beaded inlet & outlet flanges for reliable coupler retention.
- Radiused exhaust tubes & dished end caps.
- Powder coated to prevent corrosion.

RS16131 -£399.00

Spark Sponson Kit

Our race proven Pro-Series Sponsons will dramatically improve the handling of your craft with their superior blade & backing plate design. Includes a bulletproof mounting system that features a solid backing plate and four anchor points with billet inserts in sponson fins. Sponson depth is adjustable to control the amount of influence they have on the craft. Easy installation uses original mounting studs. Includes necessary hardware and installation instructions.

Fits 2-up & 3-up models.

RS26130 - £299.00

R&D Spark Intake Grate

The R&D Spark Aquavein Intake Grate will noticeably increase overall handling performance, significantly reduce cavitation, increase acceleration, and add 1+ mph to top end performance in flat water conditions! A 2-3 mph speed improvement (over stock) will be gained in rough water conditions. The Spark Aquavein will deliver a noticeable increase in rear end traction, and top speed stability. Low and high speed cornering stability is also significantly increased. The R&D Aquavein is a must have performance part addition.

113-96001 - £249.00

R&D Spark Pump Seal Kit

The R&D Spark Pump Shoe Seal Kit will seal up the pump inlet to noticeably reduce cavitation. Positive Pump hook-up, and top speed performance are increased with a perfectly sealed pump system

163-81901 - £69.00

Trim Tabs

Our precision machined Trim Tab Kit keeps your Spark from bouncing in choppy conditions. Delivers improved pump hook-up and reduced porpoising by extending the hull's planing surface. Top speed is increased in rough water and unaffected in smooth conditions. Constructed of billet aluminum and anodized to prevent corrosion. Includes aluminum backing plates for secure mounting. Allows use of factory boarding step.

RS27130_FPT -£POA

R&D Spark Ride Plate

Improve the handling and performance of the Spark with the new R&D Pro Series Ride Plate. R&D has redesigned the centre section and added overall length to the ride plate. The R&D Ride Plate transforms the vertical bow jump into forward momentum by keeping the pump hooked up and driving forward without speed loss.

RDS29 £229.00

Steering System

Introducing the ultimate race proven steering system for your Sea-Doo SPARK. Steering shaft is constructed of aircraft grade aluminum tubing for maximum strength & rigidity. Directly replaces plastic system with a stronger unit that provides variable tilt positions. Delivers a precision feel and the confidence to push your craft to the limit with improved dependability and comfort. Bulletproof bar clamp will accept any 7/8" handlebar or 1-1/8" bulge bar. Includes all necessary installation hardware and instructions.

RS20110 - £890.00

Billet Throttle & Brake Levers

Our billet lever set for Sea-Doo iControl models provides superior control and comfort along with cutting edge styling. Directly replaces the OEM plastic parts with high quality C-N-C machined throttle and brake levers. Features more responsive stainless steel return spring for a precision feel. Gunmetal gray anodized coating prevents corrosion. Installs easily with included instructions.

RS24090_licl - £129.00

Engine Access Kit

This kit provides excellent access to your Spark's engine compartment without removing the deck. Allows for routine maintenance such as oil & spark plug changes, rinsing off salt water, post ride ventilation, etc. Kit installs under seat with no visible modifications when seat is in place. Includes access panel with integrated fire extinguisher storage along with aluminum support bracket, all necessary mounting hardware and detailed installation instructions.

Key Features:

Provides easy access to engine compartment.

Integrated fire extinguisher storage.

No visible modifications with seat in place.

Applications: All Spark 2-Up & 3-Up models.

RS4-130-EAK - £149.00

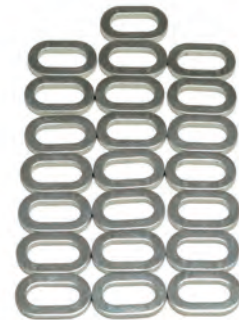

Stainless Steel Washer Kits

Sturdy stainless steel washer kits directly replace the original weak plastic washers that are prone to crack and shear under use. Provides an awesome cosmetic upgrade along with increased durability. Precision machined washers are electro polished providing excellent fit and finish. A must for repeatedly removing & replacing your deck for regular maintenance & inspection. Kits include one extra washer along with installation instructions.

Installation of both kits will provide a uniform look and maximum durability.

RS4-130-WUK-1 Engine Access Deck Kit: Includes 21 precision machined stainless washers for main (centre) engine access deck. £49.00

RS4-130-WUK-2 Front & Rear Deck Kit: Includes 31 precision machined stainless washers for front and rear decks. £59.00

Billet Aluminum Backing Plate Kit

Our billet aluminum backing plate kit provides a bulletproof mounting system for your Spark's intake grate. Precision machined from T6 aluminum, this kit enables you to install and remove your intake grate without deck removal. Also upgrades factory bilge pump and drain plug systems by lowering water inlet points for drier operation. This kit is an essential safety feature for modified craft due to the added stress on intake grate mounting points.

Key Features:

Allows intake grate to be removed & replaced without deck removal.

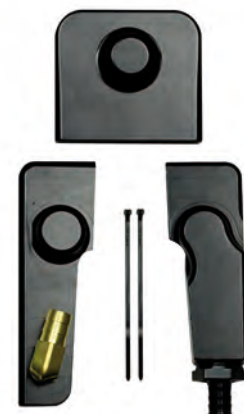

Bulletproof mounting system reinforces the plastic hull for added strength.

Improves efficiency of syphon bilge pump system.

Improves effectiveness of hull drain plug.

Applications: All Spark 2-Up & 3-Up models

RS21130-BPK-R - £129.00

Solus Spark Impeller

12-17 degree pitch, designed to give overall gains on bottom, mid & top end performance, only fit a Solas Impeller if you also fit a Aquavein & Pump Seal Kit at the same time.

SOS023 - £249.00

Power Filter Kit

Delivers greatly improved acceleration and a 1~2 mph (150~200 rpm) top speed increase by replacing the restrictive stock intake system. The Power Filter® feeds the supercharger with a steady diet of cool air via a large 3" diameter intake duct and oversized K&N filter element. Ducting is precision formed from a race proven composite that will not conduct heat to incoming air. Installs securely via a silicone coupler and sturdy bracket. Includes pre-filter element. NOTE: It will be necessary to upgrade your stock pump impeller to a steeper pitch when using the Power Filter Kit.

RS13050-06 – Fits: RXP. RXT. GTX S/C. RXP-X. RXT-X. - £249.00

RS13100-S - POWER FILTER KIT: RXT / GTX iS / aS - £259.00

Power Filter Kit RXT260

The RXT-X 260 Power Filter Kit draws cold air from outside your engine compartment delivering awesome performance and eliminating power-robbing heat intake. Forward air intake is separated from hot engine compartment with rigid thermal bulkhead that installs between engine & fuel tank. Cold air is delivered to engine via large 4" smooth-bore ducting that is attached to supercharger with unique velocity stack and sturdy billet clamps. Requires use of RIVA Catch Can/ Oil Breather System (part# RS19050-BCC - see page 3).

RS13100- Fits 2010-2015 RXT-X 260 only - £439.00

RS13110 - POWER FILTER KIT: 260 RXP-X - £439.00

Free Flow Exhaust Kits

Replaces the restrictive sound suppression system located between the water box and hull exit on the watercraft. Improves engine performance by reducing back-pressure and harmful detonation. Includes mandrel bent aluminium tubing that is powder coated to prevent corrosion, high-temp silicone replacement coupler, stainless steel hose clamp and installation instructions.

RS16080 Fits RXP-X. RXT-X & 255hp non-iControl - £99.00

RS16090 - Fits all Sea-Doo models with S3 hulls including iS & aS units. - £219.95

Rear Exhaust Kit

Kit allows removal of restrictive sound suppression system located between waterbox and hull exit. Improves engine performance by reducing back-pressure and restriction. Strategically placed fitting injects water just before exhaust exit to suppress sound level. Includes custom molded exhaust tube, billet through-hull exhaust outlet and OE exhaust outlet block-off along with all necessary mounting hardware & installation instructions. NOTE: Removal of O.P.A.S. and installation of RIVA Performance O.P.A.S Block-off Kit is necessary to accommodate installation of RIVA Rear Exhaust Kit for all models.

RS15050-1 – Fits: RXP. RXT. GTX S/C. RXP-X. RXT-X 255hp non-iControl & 215hp -

£269.00 - When fitting to an RXP-X or RXT-X you must also fit

RS17080-ICUK - Intercooler Up-Grade Kit - £489.00

RS15100-2 Rear Exhaust Kit - Fits 2010-2011 RXT-X 260 only - £269.00

(does not fit iS & aS models).

RS15110 - RXP-X 260 - £289.00

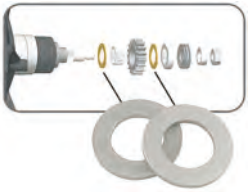

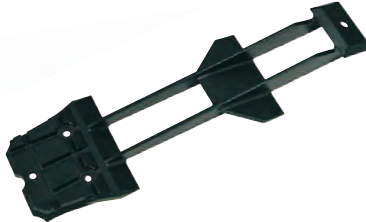

Engine Breather, Oil Catch Can

Easy to install catch can/oil breather eliminates power-robbing crankcase fumes and oil vapour from your engine's air intake. Increases horsepower by removing the engine's requirement to burn relatively non-combustible oil. Also improves intercooler efficiency by preventing the oil sludge coating that lowers thermal efficiency. Excess oil vapour is routed to our translucent catch can where it condenses and collects for occasional draining via integrated petcock valve. Kit includes K&N breather and Sea-Doo mounting bracket along with all necessary hardware & installation instructions.

RS19050-BCC – Fits All SD 4 Stroke (Except S3 Suspended Deck) - £129.00

<p>Heavy Duty Washer Kits These are direct replacements for the original clutch washers that are prone to fail on the Sea-Doo's. Precision machined from tool grade steel to increase durability. Will not break up and damage engine at end of service life. RS1751-HDW-945 ('04+'05 models) £119.95 RS1751-HDW-946 ('06+'07 models) £119.95 RS1751-HDW-948 - ('08 & NEWER 260/255/215hp) - £119.95</p>	
<p>Top Loader Scoop Grates The top-loader intake grates feature a unique tapered wing design that eliminates prop spin and cavitation while delivering enhanced acceleration and top-speed. Deep side rails improve stability and handling. Race Legal. Instantly adds 3mph to the X models. RS22050 – Fits: RXP 215hp- £149.00 RS22055 – Fits: RXT. GTX S/C - £149.00 RS22080 – Fits: RXP-X. RXT-X 255hp non-iControl - £149.00</p>	
<p>Solas Impeller Solas Concord Impellers increase low-end thrust and top-end speed. Constructed of high strength stainless steel, Solas Impellers feature a polished hub and exclusive hub-end water seal for reduced cavitation. All "R" model Solas impellers are designed to be fitted in conjunction with a Stage 1 Kit. For application guide please refer to the Solas section on page 16</p>	
<p>Stainless Steel Impeller Liner Original Sea-Doo impeller liners are made from a plastic/composite material which is prone to damage when a stone enters the pump housing, the stainless steel liners are much more durable than the OEM liner and are longer wearing. SOWR – Fits: RXP. RXT. RXP-X. RXT-X - £129.95 SOWR.1 - Fits: GTX 4Tec/155 & 185 hp - £129.95</p>	
<p>VTS Extension Rod The precision-machined VTS Extension Rod allows maximum "nozzle down" adjustment after installation the RIVA Pump Wedge. Necessary on modified craft to keep bow down during initial acceleration while still providing maximum top speed advantage when trimmed up. Adjustable design comes preset for RIVA 2° Pump Wedge. For 255/215hp non-iControl models only RS23050-1-ER - Fits: RXP. RXT. GTX S/C. RXP-X. RXT-X - £95.00</p>	

**for details of the RIVA race bred Stage Kits
 visit: www.lineonedist.co.uk**

Pump Wedge

Pump Wedges substantially improve the top-speed of your craft 1~2mph. The precision-machined 2-degree wedge trims up your pump nozzle raising the bow of your craft for less drag. RIVA Pump Wedge features a unique double-sided lip to retain silicone sealant and prevent cavitation. Constructed of aircraft grade anodised aluminium.

NOTE: We do not recommend installing our Pump Wedge without installing an aftermarket intake grate such as our Top-Loader Intake Grates (RXP part# RS22050 / RXT. GTX part# RS22055).

Our Performance Development Team has found that installing the Pump Wedge without an aftermarket intake grate causes the craft to handle unpredictably. For 255/215hp non-iControl models only

RS23050 – Fits: RXP. RXT. GTX S/C. RXP-X. RXT-X - £129.00

Pro-Series Sponson Kit

Our race proven Pro-Series Sponsons will dramatically improve the handling of your craft with their superior blade & backing plate design. Includes a bulletproof mounting system that features a solid backing plate and five anchor points with billet inserts in sponson fins. Sponson depth is adjustable to control the amount of influence they have on the craft. Easy installation uses original mounting studs. Includes necessary hardware and installation instructions. For 255/215hp non-iControl models only

RS26050 – Fits: RXP. RXT. GTX S/C. RXP-X. RXT-X - £339.00

Pro-Series Sponson Kit

RIVA's race proven sponsons deliver a significant handling improvement through increased adjustability, strength and design. Adjustable billet aluminum stabilizer wing allows you to tune lean-in handling characteristics. Bulletproof aluminum mounting inserts add strength and increase vertical adjustability. Sponson fins are precision machined from high strength material that will not flex under extreme conditions.

RS26110 - RXP-X / RXT-X 2012 260hp - £399.00

O.P.A.S Performance Block-Off

Designed to cleanly and easily cover the openings left when O.P.A.S. is removed preventing water from entering the hull. Made from billet aluminum utilizing O-ring seals. Anodized to prevent corrosion. Installs easily with stock hardware.

RS29050-1 - Fits: RXP. RXT. GTX S/C. RXP-X. RXT-X - £129.00

<p>Rear Exhaust Kit The rear exhaust kit for the FZR-FZS delivers performance and cutting-edge style. Allows for removal of restrictive sound suppression system located between water box and hull exit. Improves engine performance by reducing back pressure and restriction. Includes mandrel bent aluminum exhaust tube that is powder coated to prevent corrosion, large billet through-hull exhaust outlet, billet OEM exhaust outlet block-off and high-temp silicone couplers along with all necessary mounting hardware & installation instructions. RY15050 - £329.00 - Fits: FZR/FZS RY15070 - £329.00 - Fits: 2012 & newer FX-SHO & FX-HO (NA) models only</p>	
<p>FZR. FZS. FX-SHO Water Box Developed on the RIVA Dyno and tested extensively on the water, this water box features radiused exhaust tubes and end caps for optimum exhaust flow. Unique exhaust baffle will increase the low-end power and mid-range pull of your Yamaha watercraft. Delivers up to 15hp on modified engines along with significant torque gains. High-strength aluminum construction will survive backfires and meltdowns. Powder coated to prevent corrosion. A must for modified motors. Delivers up to 15hp on modified craft! Machined hose flanges for reliable coupler retention. Radiused exhaust tubes & end caps. Powdercoated to prevent corrosion. RY16041 - £379.00</p>	
<p>Performance Power Filter The Power Filter feeds your SHO a steady diet of cool air delivering greatly improved acceleration and rpm. Replaces restrictive stock air box with a high-volume, precision-formed intake duct that attaches to the supercharger via a large 4" adapter. Cool air enters the system via an oversized K&N filter element. Includes water-repellent pre-filter and detailed installation instructions. RY13040 - £279.00 - Also Fits SHO/FZR/FZS/SVHO RY13070 - £279.00 - Fits SHO '12+ /FX SVHO</p>	
<p>Free Flow Exhaust Kit Replaces the restrictive sound suppression system located between the water box and hull exit on your watercraft. Improves engine performance by reducing back pressure and harmful detonation. Includes mandrel bent aluminium tubing that is powder coated to prevent corrosion, high-temp silicone replacement coupler and installation instructions. RY16040 - £189.00 - Also Fits SHO/FZR/FZS/SVHO RY16070 - FX SVHO - £189.00</p>	
<p>Intake Manifold Up-Grade Kit The Intake Manifold Upgrade Kit enables your SHO engine to produce more horsepower by delivering increased air flow and boost pressure (+1lb). Precision tapered billet sleeve directly replaces restrictive mesh element in intake manifold. Provides improved low-end punch and mid range pull through quick & easy installation. Includes detailed installation instructions. NOTE: Our testing has determined the stock ECU will compensate for the increased boost provided by our Intake Manifold Upgrade Kit. RY12040-IMUK - £39.00 Fits all FX-SHO & FZ Models & 2013 FX-HO & VX Models SVHO/FX SVHO</p>	
<p>Power Plenum Flame Arrester The R&D High Flow Filter design replaces the restrictive stock filter inside the OEM air box. This is the only performance filter that utilizes the water resistant OEM air box, allowing improved air flow. Why? Because replacing the OEM paper filter element with the R&D high flow filter allows more air flow which equals more power and improved performance. The washable and reusable design means this will be the last filter you will ever have to buy. 200-01800 - £99.95 - Fits: SHO/FZR/FZS</p>	

<p>Surge Protector Kit The R&D Yamaha Surge Protector Kit will significantly improve supercharger clutch and compressor wheel performance and reliability by eliminating damaging compressor surge. This turbulence is the primary cause of undue stress on the supercharger compressor wheel, intercooler, clutch system, and its components. As soon as the throttle valve is opened, the blow off valve immediately closes and the compressor can supply its full boost potentials to the engine. Note: Can only be fitted with Multiport (612-92005) 612-18008 - £299.00 - Fits SHO/FZR/FZS</p>	
<p>Multi-Pressure Port Boost Gauge/Surge/RRFPR Adaptor Kit The R&D Yamaha Multi-Pressure Port Adaptor Kit will allow quick and easy hook up of digital or manual boost gauges with the R&D Multi-port billet adaptor. The R&D Pressure Port Adaptor installs between the MAP sensor and the MAP sensor bracket as a "bolt on" part with no modifications. The R&D Pressure Port Adaptor Kit comes complete with longer MAP sensor mounting screws, o-ring seals, nylon cable ties, all mounting hardware and instructions. 612-92005 - £49.95 - Fits SHO/FZR/FZS 612-92006 - £17.95 - Fits SHO '12+</p>	
<p>Engine Breather Up-Grade Kit Easy to install Engine Breather Upgrade Kit eliminates power-robbing crankcase emissions from your engine's air intake. Increases horsepower by removing the engine's requirement to burn relatively non-combustible oil. Also improves intercooler efficiency by preventing the oil sludge coating that lowers thermal efficiency. Easy installation retains highly efficient OEM air/oil separator system. Kit includes pre-formed hose with attached K&N filter along with all necessary hardware & instructions. RY19040-EBUK-1 - £49.95 - Fits SHO/FZR/FZS RY19040-12-EBUK - £49.95 - Fits '12 & Newer 1.8L</p>	
<p>Top Loader Scoop Grate Top-Loader intake grate improves hook up and handling in rough conditions. Centre wing eliminates prop spin and cavitation found with the stock grate along with the SHO's tendency to drop on its nose when the throttle is let off at high speeds. Powder coated to prevent corrosion. RY22040 - £249.00 - Fits SHO & FX '08-11 RY22070 - £329.00 - Fits '12 & Newer FX Models</p>	

<p>Pump Seal Kit Dramatically reduce cavitation and prop spin with our easy to install Pro Pump Seal Kits. Location specific, molded inserts fill the voids in OEM pump inlet shoe that bleed air into pump causing cavitation. Recommended for modified craft using aftermarket intake grates. Includes detailed installation instructions.</p> <p>RDY34.4 - SHO - When using RIVA Scoop Grate - £75.00 RDY34.5 - SHO - When using R&D Scoop Grate - £75.00 RDY34.7 - FZR/FZS When using RIVA Scoop Grate - £75.00 RDY34.8 - FZR/FZS When using R&D Scoop Grate - £75.00 RDY34.9 FX SVHO when using RIVA Scoop Grate - £75.00 RDY34.1 FX SVHO when using R&D Scoop Grate - £75.00</p>	
<p>Solas Impeller Solas Concord and Super Camber Impellers will increase low-end thrust and top-end speed. Constructed of high strength stainless steel, Solas Impellers feature a polished hub and exclusive hub-end water seal for reduced cavitation.</p> <p>SOY003.2 – YS-CD-13/22 - £249.00 Fits: FX-SHO. FZR/FZS YS-DF-13/22R – RIVA Race Impeller - £339 - Fits: FX-SHO. FZR/FZS SOY023 YV-CD-13/20 Fits FX SVHO</p>	
<p>Performance Ride Plate The Performance Ride Plate for the new SHO improves top speed and reduces porpoising. Unique design provides quicker planing and improved handling. Compatible with OEM speedo sender.</p> <p>RY21040 - £249.00 - Fits SHO RY21050 - £249.00 – Fits FZR/FZS and 08 to 11 FX models</p>	
<p>Pro-Series Sponson Kit Unique blade design provides a significant improvement to the handling characteristics. Reduces rough water hunting and rolling sometimes experienced with stock sponsons. Sponson depth is adjustable to control the amount of influence they have on craft. Easily installs to stock mounting points with RIVA's bulletproof mounting system that features billet inserts in sponson fins.</p> <p>RY2625 - £249.00 – Fits FX-SHO/FZR/FZS/VX All</p>	

<p>Power Filter Flame Arrester The FX Power Filter® is a direct replacement for the restrictive stock air filter in the OEM air box. Delivers increased airflow to engine providing improved throttle response, acceleration and top speed. Screen-type element will not soak up excess engine oil, as does the OEM paper element that increasingly restricts performance. Power Filter is designed to work in conjunction with Velocity Stacks so as to optimise performance. RY1325 - £99.00 - Fits `08~02 FX-140 Models (MR-1 Engine)</p>	
<p>Velocity Stack Kit Designed to increase horsepower and torque throughout the RPM range on your FX140 or FXHO The easily installed Velocity Stack Kit replaces the restrictive factory flame arrestors providing improved throttle response and top-speed. Kit includes four Velocity Stacks machined from billet aluminium that utilize O-ring seals and set screws to lock onto throttle body and are anodised to prevent corrosion. Sold in sets of four. RY1325-VSK - £129.00</p>	
<p>Free Flow Exhaust Kit Replaces the restrictive sound suppression system located between the waterbox and hull exit on your watercraft. Improves engine performance by reducing back pressure and harmful detonation. Easy installation with noticeable results. RY1625 - £129.00 - Fits `02~08 FX-140 Models (MR-1 Engine)</p>	
<p>Top Loader Scoop Grate Our Top-Loader intake grate improves hook up and handling in rough conditions. Centre wing eliminates prop spin and cavitation found with the stock grate along with the FX's tendency to drop on its nose when the throttle is let off at high speeds. Powder coated to prevent corrosion. RY22040 - Fits `08 FX - £199.00 RY22325 - Fits FX 02-07 models - £169.00</p>	
<p>Pump Seal Kit Dramatically reduce cavitation and prop spin with our easy to install Pro Pump Seal Kits. Location specific, molded inserts fill the voids in OEM pump inlet shoe that bleed air into pump causing cavitation. Recommended for modified craft using aftermarket intake grates. Includes detailed installation instructions. RY2525 - Fits All FX £79.00</p>	
<p>Performance Ride Plate Improves Top Speed and Handling, Provides Quicker Planing, Great for Riding Multiple Passengers, Compatible with OEM Speedo Sender. RY21025 - Fits FX models: `02-'04 - £199.00 RY21026 - Fits FX `05 -'08 - £199.00</p>	
<p>Solas Impeller Solas Concord and Super Camber Impellers will increase low-end thrust and top-end speed. Constructed of high strength stainless steel, Solas Impellers feature a polished hub and exclusive hub-end water seal for reduced cavitation. SOY002 - YG-DF-14/20 - Fits: FX-HO. FX-HO Cruiser £249.00 - Fits `02~08 FX Models SOY004 - YF-CD-12/18 - Fits: FX140. FX Cruiser £249.00 - Fits `02~08 FX Models</p>	
<p>Pro-Series Sponson Kit Unique blade design provides a significant improvement to the handling characteristics. Reduces rough water hunting and rolling sometimes experienced with stock sponsons. Sponson depth is adjustable to control the amount of influence they have on craft. Easily installs to stock mounting points with RIVA's bulletproof mounting system that features billet inserts in sponson fins.. Fits all Yamaha SHO, FX & VX models. RY2625 - £249.00</p>

Billet Steering System

Features: CNC manufactured from billet aluminum & stainless steel for added strength. Heavy duty bearings - top sealed bearing for durability & lower thrust bearing for smooth turning. Three O-rings to protect the bearings from salt water corrosion while the redesigned shortened turn plate moves the rider to a more forward position to reduce porpoising and allow a more aggressive riding position. With three steering ratio positions, the multiple bar clamp option allows you to run standard straight or freestyle bars, as well as Phat Clamped 1 1/8 inch tapered straight and riser handlebars. Removable steering arm on turnplate allows you to adjust the turn-plate between Yamaha & Kawasaki applications. **Please note:** the system works with all 2009 and older Blowsion and UMI turnplates as well as most aftermarket brands. Bars and Phat Clamp are sold separately.

Part No: 03.05.004 - £189.00

Kommand Phat Clamp

Constructed of 6061 Aluminum and carbon grey anodized this ultra trick clamp allows the rider to move even further forward in the tray. Allows rider to retrofit Blowsion, UMI and many other steering system turn plates on the market to run the Blowsion straight and V Riser Phat bars. Developed in conjunction with Blowsion Pro Freeriders Ross Champion and Pierre Maixent

Part No: 03.05.018 - £79.95

Blowsion Kommand Handlebars

Freestyle V shape design with cross bar, 0 & 4 degree bend - **Part No: 03-05-141 - £59.95**

Standard diameter straight bar - **Part No: 03-05-147 - £59.95**

Phat Design oversized straight bar (for Phat Clamp only) - **Part No: 03-05-145 - £59.95**

Phat Design oversized rise bar (for Phat Clamp only) - **Part No: 03-05-146 - £59.95**

Billet Throttle Lever

The new Blowsion straight pull finger throttles provide superior fit and feel whether you are on the waves or on the buoys. Lever angle is situated to reduce hand and arm fatigue. Delrin bushings eliminate the play common in OEM throttles and provide a smooth throttle pull. All stainless hardware at the hinge point eliminates corrosion and play. No C clips used. Available for all models. Available in anodized Silver, Black, Orange, Red, Yellow, Blue and Lime Green.

Part No: 03.01.065 - £59.95

Throttle adapters must be used when installing. Available for Kawasaki, Yamaha, Seadoo - see below.

Throttle Cable Adapters

Required when fitting Billet Throttle Lever.

UMI036 - Yamaha throttle cable adapter - £9.95

UMI037 - 96+ Kawasaki throttle cable adapter - £9.95

UMI038 - Sea-Doo throttle cable adapter - £9.95

<p>Pole Spring Heavy duty handlepole spring for the 96+ Super Jet and 94-95 Yamaha FX1. Drop in fit and well high tension design for those riders desiring a feather light handlepole. No more broken springs or 2 hour/2 beer installations! BS33 - '96+ Superjet - £34.95 BS33.1 -Kawasaki 750SX / 800SXR Pole Spring - £39.95</p>	
<p>Billet Bilge Outlets Blowsion machined aluminum bilge fittings are a clean replacement of the bulky plastic fittings usually supplied with aftermarket bilge pump kits. These fittings have a hose flange machined on them so no hose clamp is necessary. Available in anodized silver, black, green, red, yellow/gold, blue and orange. Part No: 04.03.028 - £14.95</p>	
<p>Water By-Pass Fitting Blowsion water bypass fittings increase engine performance by diverting some of the water from the cylinder head to the bypass fitting, rather than forcing all of the water through the exhaust system. The machined bypass fitting are angled at 90 degrees. Available in anodized silver, black, violet, blue, green, yellow-gold and red Part No: 04.03.005 - £14.95</p>	
<p>Alluminum Nose Bushes Billet aluminum bow eye bushings. Available in anodized blue, green, orange, red, yellow/gold, black and silver. Part No: 04-03-047 - £14.95</p>
